

Item	Points		
	1	2	3
Perpendicular	Ear cut at angle greater than 25° deviation away from the perpendicular aspect	Ear cut at angle less than 25° but greater than 10° deviation away from the perpendicular aspect	Ear cut at angle with less than 10° deviation away from the perpendicular aspect
Straightness	Any line with discontinuity (e.g. visible jags)	Any noticeable concavity or convexity of the line, but is still continuous	Straight as possible

Supplemental Table 1. Cosmesis rubric showing the points assigned for the items of straightness of the cut and angle of deviation from the perpendicular.
