

*Supplemental material*

Supplemental Table 1. Infectious diseases in Good Samaritan dogs and cats

Diseases	Count
<b>Canine</b>	<b>12</b>
<b>Virus</b>	6
Parvoviral enteritis	6
<b>Parasites</b>	5
Flea infestation-associated anemia	1
<i>Toxocara canis</i>	2
<i>Trichuris</i> spp.	1
Unspecified nematode	1
<b>Bacteria</b>	1
Suppurative dermatitis and cellulitis (coccobacilli)	1
<b>Feline</b>	<b>5</b>
<b>Bacteria</b>	2
Pyothorax (filamentous bacteria)	1
Septic meningoencephalomyelitis ( <i>Staphylococcus</i> or <i>Streptococcus</i> spp. presumed)	1
<b>Virus</b>	1
Feline infectious peritonitis	1
<b>Fungi</b>	1
Blastomyces dermatitidis	1
<b>Parasite or virus</b>	1
Nonsuppurative encephalitis	1
<b>Total</b>	<b>17</b>

Supplemental Table 2. Other causes of mortality and morbidity in Good Samaritan dogs and cats

Diseases	Count
<b>Feline</b>	<b>11</b>
<b>Endocrine</b>	<b>2</b>
Thyroid follicular adenoma with thyrotoxic cardiomyopathy	1
Hyperthyroidism	1
<b>Gastrointestinal</b>	<b>2</b>
Jejunal intussusception	1
Lymphoplasmacytic gingivitis and stomatitis (Severe periodontal disease)	1
<b>Respiratory</b>	<b>1</b>
Feline asthma	1
<b>Metabolic</b>	<b>1</b>
Hepatic encephalopathy	1
<b>Toxicity</b>	<b>1</b>
Suspect ethylene glycol toxicosis	1
<b>Vascular</b>	<b>1</b>
Vertebral thrombosis (L6)	1
<b>Cardiac</b>	<b>1</b>
Endomyocarditis with replacement fibrosis	1
<b>Neoplasia</b>	<b>1</b>
Meningeal lymphoma	1
<b>Renal</b>	<b>1</b>
Renal tubular degeneration, intratubular calcium oxalate crystals, papillary necrosis, glomerular mineralization	1
<b>Canine</b>	<b>6</b>

<b>Renal</b>	<b>2</b>
Chronic renal disease	1
Acute renal tubular necrosis with tubular mineralization and regeneration	1
<b>Neoplasia</b>	<b>2</b>
Multiple neoplasms	1
Mammary adenocarcinoma	1
<b>Gastrointestinal</b>	<b>1</b>
Rectal prolapse and necrosis	1
<b>Metabolic</b>	<b>1</b>
Hepatic lipidosis	1
<b>Total</b>	<b>17</b>
